Professional Summary

MERN Stack Developer with hands-on experience building responsive and full-stack web applications using **React.js**, **Node.js**, **Express.js**, and **MongoDB**. Experienced in developing RESTful APIs, JWT authentication, role-based access control, admin dashboards, CRUD operations, database integration, and responsive UI components. Strong focus on clean, maintainable code, reusable components, API integration, debugging, and user-friendly web applications.

Professional Experience

Earth Bond Solutions

06/2026 – Present

Software Developer

- Develop and maintain web applications using JavaScript, React.js, Node.js, and Express.js.
- Design and implement RESTful APIs and integrate frontend applications with backend services and databases.
- Work with MongoDB for database operations, data management, and application development.
- Build responsive and reusable interfaces while following clean and maintainable development practices.
- Debug software issues, optimize application performance, and contribute to feature implementation, testing, and deployment.
- Use Git and GitHub for version control and source-code management.

Infosol Technosol Pvt. Ltd.

02/2025 – 03/2026

Junior MERN Stack Developer

- Developed and maintained responsive web applications using MongoDB, Express.js, React.js, and Node.js.
- Built reusable React components and responsive interfaces using HTML, CSS, and JavaScript.
- Developed and integrated RESTful APIs using Node.js and Express.js for frontend-backend communication.
- Implemented MongoDB database operations, CRUD functionality, authentication, form validation, and error handling.
- Debugged frontend and backend issues and optimized application performance.

Projects

NextGen Education CRM

06/2026 – 07/2026

MERN Stack

- Developed a full-stack Education CRM for managing leads, counsellors, students, universities, courses, admissions, documents, and payments.
- Implemented the complete Lead → Counselling → Student → Admission → Document Verification → Enrollment workflow.
- Built role-based Admin and Counsellor modules with authentication, validation, notifications, activity tracking, and dashboards.
- Developed RESTful APIs with MongoDB and created responsive dashboards with analytics, filters, tables, reports, and reusable React components.
- **Live:** nextgenedu.co

EKACEL – Battery & Energy Solutions Website

07/2026 – 08/2026

React.js, Vite, Tailwind CSS, JavaScript, Framer Motion, REST APIs

- Developed a modern responsive website for showcasing automotive, inverter, solar, lithium, EV, industrial, and energy-storage products.
- Built reusable components for navigation, mega menu, hero slider, product categories, product cards, energy solutions, industries, and contact sections.
- Implemented auto-sliding hero sections, smooth animations, product categorization, filtering, product navigation, and responsive menus.
- Focused on reusable components, responsive UI/UX, performance, smooth page transitions, and maintainable frontend architecture.
- **Live:** ekacel-git-main-md-tauseefs-projects.vercel.app

Education

Parul University, Gujarat

2020 – 2024

B.Tech in Computer Science Engineering

CGPA: 7.83

Technical Skills

Languages	JavaScript, C++
Frontend	React.js, Redux Toolkit, HTML5, CSS3, Bootstrap, Material UI, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, JWT Authentication, RBAC
Database	MongoDB, CRUD Operations
Development	MVC Architecture, API Integration, Responsive UI, Authentication, Form Validation
Tools	Git, GitHub, Postman, VS Code, NPM
Services	Firebase, Cloudinary

Languages

English | Hindi | Urdu
